A cross-sectional view of a container assembly. The container body (1) has a dashed line indicating an internal cavity (1a). The lid (2) is shown in a closed position, with a central component (5) seated within it. The central component (5) is surrounded by a layer (4) and a layer (6). The lid (2) is secured by a clamping mechanism (13, 14) which is part of a larger assembly (15). The clamping mechanism (13, 14) is shown in a cross-section with diagonal hatching. The central component (5) is shown in a cross-section with a wavy top surface. The lid (2) is shown in a cross-section with diagonal hatching. The container body (1) is shown in a cross-section with a dashed line indicating an internal cavity (1a).
